Quadro CS®
REDEFINING THE CHAT ROOM

QuadroCS: The Quadro VoIP Conference Server Redefines the Chat Room

The QuadroCS is the complete low-cost Voice over IP conference server for small and growing businesses. Connected over 10Base-T Ethernet to the Internet, the QuadroCS allows voice conferencing of up to 25 participants in one or more simultaneous call clusters. Everyone can be reached inbound and outbound. It's like having your own global chat room
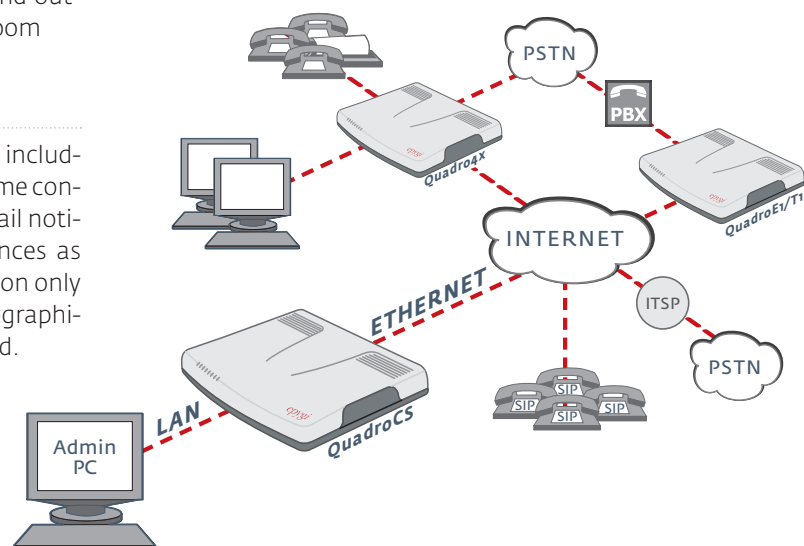

Fully-Featured Conference Server

The QuadroCS offers a multitude of features including automatic dial-out to participants, meet-me conferences, locking/recording a conference, email notification and reminder of scheduled conferences as well as a conference creation wizard to mention only a few. For larger conferences, clusters of geographically dispersed QuadroCS units may be defined.

Integrated Internet Access

The QuadroCS conference server allows voice Internet access with firewall security, including NAT.

Lowering Costs

Monthly recurring costs for expensive conference services are eliminated with the low-cost system QuadroCS that practically manages itself.
